

Support and Reimbursement for Continuing Education and Reference Library

Registry Exam Fees

Insight Imaging supports all Sonographers studying to take their registry board exams through the ARDMS. The company will reimburse 100% of the registry exam fees associated with the appropriate specialty area.

Registry Review Text

Insight Imaging has a list of recommended registry review material for Sonographers to use as study tools for related registry exams. Sonographers are welcome to use review text available in Insight's central library or purchase items not available in the library upon approval from the Technical Director. Insight Imaging will reimburse 100% for the purchase of this material with the understanding that it will be returned to the central office upon successful completion of the registry exam. Please keep in mind that this study material will be made available to all other Sonographers studying to take the registry exam. Please make an effort to return this material unmarked.

Registry Exam Review Courses

Insight Imaging will reimburse 100% of the registration fee for any regional registry review courses. All registry review courses should be related to the relevant specialty. Sonographers shall be responsible for costs associated with travel and accommodations. Meeting that require Sonographers to be absent during normal business hours will need to be pre-approved two months in advance by the Technical Director.

CME Credits

Insight Imaging will reimburse 100% of the fees associated with home-study continuing education credits. A list of CME resources is available on our website at www.insightimagingllc.com under Sonographers/CME Links.

National/Regional Meeting

Insight Imaging will reimburse 100% of the registration fees for continuing education meetings and seminars once per year for all Sonographers registered in all three specialties (RDMS, RVT, and RDCS). Sonographers shall be responsible for costs associated with travel and accommodations. Meeting that require Sonographers to be absent during normal business hours will need to be pre-approved two months in advance by the Technical Director.

Text Reference Library

Insight Imaging has a list of suggested textbooks for Sonographers to use as a reference library. An annual contribution of \$100 will be provided for each Sonographer toward the purchase of a reference textbook in a specialty of their choice. Sonographers are welcome to add textbooks to their library which are not on the recommended list. Reimbursements will be applied one pay period after proof of purchase is submitted to the central office.

Professional Journals and Periodicals

Insight Imaging has an active membership with the following professional organizations:

- Society of Diagnostic Medical Sonographers (SDMS)
- American Institute of Ultrasound Medicine (AIUM)
- American Society of Echocardiographers (ASE)
- Society of Vascular Ultrasound (SVU)
- North Carolina Ultrasound Society (NCUS)

Professional Journals and related articles will be circulated among Insight's Technical Staff and former publications will be made available upon request.
